WWW.ADNA.ORG

Dear Patient:

For your convenience, staff and providers with Adena Family Medicine – Ironmen Clinic will be available to provide comprehensive wellness exams for 2022-2023 Kindergarten students, as part of the upcoming Jackson City Schools’ Kindergarten screening events. To ensure that your child meets all school requirements, any necessary paperwork and immunizations can be completed during this visit.

The Adena Family Medicine - Ironmen Clinic is located inside the Jackson Middle School. If your child is due for an annual wellness visit, you may schedule an appointment in advance by calling 740-286-7869.

For continuity of care, if your child has a regular medical provider, we encourage you to seek care (including immunizations) from them. However, if you would like to transition your care to Adena, we can facilitate that change and obtain your child’s medical records as appropriate.

Please keep in mind that all insurance companies, as well as Medicaid and Medicaid Managed Care pay for one annual wellness visit per year; this is of no cost to you. If your child has already had a wellness visit in the past 12 months, but is in need of documentation for school paperwork, you should contact the provider who performed the annual wellness visit.

Because we know that insurance allowances and appointment scheduling can be complicated, there will be an Adena representative available at every Kindergarten screening event to guide you.

Thank You,
